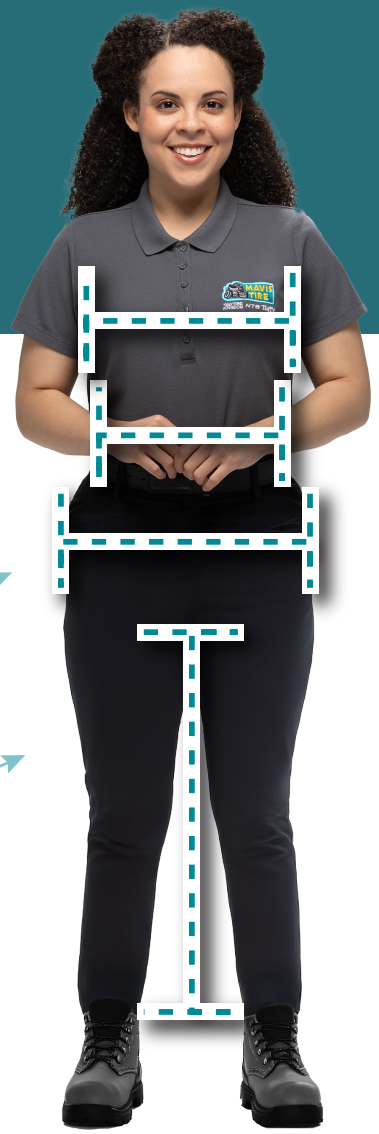
FEMALE
SIZE & FIT GUIDE

Consult this Size Chart and Fit Guide to determine the appropriate ordering size. To locate your accurate measurements, reference the point-of-measure guide below. Keep the measuring tape parallel to the ground when measuring your bust, waist, and hip.



HOW TO MEASURE

CHEST/BUST

Measure total circumference of your chest at the fullest part, just under the armpit, keeping your arms down.

WAIST

Bend to one side to find the natural crease of your waist; measure across this point.

HIP

Measure total circumference at the widest part of your body below the waistline.

INSEAM

Measure your inner leg from your crotch to where you want your pants to fit on your ankle.

WOMEN'S FIT CHART
